sons, called uric acid, is formed and Millions of people keep their joints then sucked into the blood where it free from these rhounstic acids by continues to circulate, collecting grain practicing this daily internal sanitaby grain in the joints of the body tion. A glass of hot water with a teamuch like rust collects on the hinge spoonful of limestone phosphate, drank before breakfast, is wonderfully invig-Men and women who suffer from orating; besides, it is an excellent fumbago, rheumatism or sore, stiff, health measure because it cleanses the aching joints should begin drinking alimentary organs of all the waste, phosphated hot water, not as a means gases and sour fermentations, making to magic relief from pain, but to pre- one look and feel clean, sweet and vent more uric acid forming in the fresh all day.

system. Before eating breakfast each Those who try this for one week morning, drink a glass of real hot may find themselves free from sick water with a teaspoonful of limestone headaches, constipution, billous at phosphate in it. This will first neu- tacks, sallowness, nasty breath and tralize and then wash out of the stom- stomach acidity.

Efficiency built the Panama Canal, after inefficiency failed. The efficiency of the Panama Canal doubled the effectiveness of the U. S. Navy without adding a ship to it. It took over 8,000 miles out of the trip from New York to San Francisco and changed the highway between London and Australia from Suez to Panama

Efficiency insures against lost motion—it produces the utmost service out of equipment and yields the finest product, at

# ertain-teed Roofing

### is an efficiency product

Every advantage that men, money and machinery can offer is used to increase the production, maintain the quality and lower the cost. Each of the General's enormous mills is advantageously located to serve the ends of efficient manufacture and quick distribution. Each is equipped with the most up-to-date machinery. Raw materials are purchased in enormous quantities and far ahead of the needs of manufacturing, thus guarding against increased cost due to idle machinery. This also insures favorable buying, and the pick of the market.

Expert chemists at each mill are employed to select and blend the asphalts, and every roll of CERTAIN-TEED is made under their watchful care.

CERTAIN-TEED resists the drying-out process so destructive to ordinary roofing, because the felt is thoroughly saturated with a blend of soft asphalts, prepared under the formula of the General's board of expert chemists. It is then coated with a blend of harder asphalts, which keeps the inner saturation soft. This makes a roofing more pliable, and more impervious to the elements than the harder, drier kind.

CERTAIN-TEED is made in rolls; also in slate-surfaced shingles.

There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roofs, from the largest sky-scraper to the smallest residence or out-building.

CERTAIN-TEED is guaranteed for 5, 10 or 15 years, according to ply (1, 2 or 3). Experience proves that

### DEER WAS A FIGHTER

NOTHING "MILD EYED" OR "TIM ID" ABOUT THIS BUCK.

One Hunter Decidedly of the Oninion That When Out for Vanison Caution is a Quality That is to Be Highly Prized.

When surons grows element ever the "mild-eved, timbs deer," Jim Parlow antice a knowing unils and shuces his shoulders He knows better, for he has fived for thirty years in the much and knows all about the fightmu powers and proposition of the bucks.

When his father, who, with his older brothers, was goffing out logs, brough him to the bush he was a goodefield lad. He had soon a few door shot bled and hung up, but he had been in the bush some months before he had his own adventure. It was in the euryly winter.

One day Jim heard his dog baraing furlously in the nearby awamp. He snired his gun and went down. The dog had a big buck at hay, and the buck seemed to be enjoying the aport. guite as much as the dog. The dog tried amain and again to get a grin on the deer, but its horns were always. in the way. Again and again the deco rushed at the don, has he always dedged skillfully and snapped at the deer's less. It looked to Jim like a ense of endurance; but the sud came with sinriling swiftness. Whether the dog weakened or was caught off his geard Jim never know, but, like a strenk of lightning the buck landed on the dog with both sharp front feet There was a wild scream and the don lay perfectly still. The deer continued to lean up and down and cut the dog's body to pleces with his knifelike hoofs. Jim put his gun to his shoulder and

fired. The buck lifted its bond and charged. Jim threw another eariridge into the old-fashioned rive and fired a second shot. That brought the buck down with a crash.

Jim drew his hunting knife and ran to cut the deer's throat. He put his knife on the deer's shoulder and had Enrely touched the throat with the knife when the animal sprang up Jimflying into the snow over the buck's head, and he lost his knife. The deer whirled round, and as Jim cried to get to his feet it hit him in the back and knocked him down. He tried to rise again, and was knocked over again. The deer's sharp feet cut. through his cost and gashed his back. Jim could see his rifle, but it was on the other side of the deer. He felt round in the snow, but could not find his knife. He thought that he must get his gun or it would be all over with him. He tried to edge away toward the rifle, but the deer was on him like a flash of lightning. The sharp hoofs struck him in the side and knocked him unconscious. Whether

or not the deer hit him again he never Late in the afternoon Jim's brother nme in with a load of lumbering supplies. He had his own dog with himliopsis. Early Flowering Cosmos, big buck by dead. The brother mixed, African Marigolds, Sweet Mig- told his story, but it was some time

And then he should have a suit for every occasion after that. Here's the dope for the swell dresser-twelve sack suits, cutaways, full evening clothes, dinner a dozen or so fancy vests, in fact, a and every occasion must be included done for the trifling sum of \$5,000 a year, or \$100 a week, It's very simple when one knows the system, the molders of fashion say. Some of the fellows who have a suit for every day in the week, and that is the one they are wearing, are thinking of establishing credit with their tailors and go to it. The tailors then may alter the aforementioned decree.-New York

Literary Centenaries.

The year 1916 will be a remarkable one for anniversaries. First and foremost is the Shakespeare centenary; July 7th will mark the centenary of the death of another of our greatest dramatists, Richard Brinsley Sheridan, who died in the greatest poverty, but was accorded a magnificent funeral in Westminster abbay. Other literary anniversaries are those of Charlotte Bronte, who was born in 1816, and Thomas Gray, the poet, who urst saw the light a century earlier. This year also witnesses the hundredth anniversary of the birth of Philip James Riley, a poet who has always met with far greater veneration in the United States than in his native country.-London Tit-Bits.

Millions in Flax.

At the present time about 2,200,000 cres are devoted to the raising of flax, chiefly in North Dakota, Minnesota, South Dakota and Montana. The flax is grown primarily for the seed from which Huseed oil is manufacared. The annual crop amounts to about 20,000,000 bushels of seed and s valued at approximately \$33,000,000 The crop also yields approximately 500,000 tons of straw, but of this ony about 200,000 tons are put to any

### KIDNEYS CLOG UP FROM EATING TOO MUCH MEAT

Take Tablespoonful of Salts If Back Flurts or Bladder Bothers-Meat Forms Unic Acid.

We are a nation of meat esters and our blood is filled with urlc acid, says digestion, a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their atmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the en-

tire system. When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and disay spells, sleeplessness, acid stomach or rhoussatism in bad weather, get from your pharmacist about four cunces of Jud Salts; take a tablespoonful in a Intrace your forme lost.
